***Status of the Claims***

Claims 9-28 have been presented for examination.

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 9-18, drawn to a treatment of hyperactive T-cells with protease and rutoside.

Group II, claim(s) 19-20, 23-24, drawn to a treatment of hyperactive T-cells with protease and  $\alpha_2$ -macroglobulin.

Group III, claim(s) 21-22, 25-28, drawn to a treatment of hyperactive T-cells with protease, rutoside and  $\alpha_2$ -macroglobulin.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each of these methods is drawn to administration of different combinations of active ingredients as indicated. The subcombination, proteases and rutoside has separate utility from the combination with  $\alpha_2$ -macroglobulin. On its face the claims drawn to  $\alpha_2$ -macroglobulin appear to be separately drawn. The proteases in common with all

three groups, trypsin, bromelain and papain, are old and well known in the art and cannot therefore establish a special technical feature which is an improvement over the art.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
